WORK EXPERIENCE

Quantum Gears (Forum Systems)

Needham Heights, MA

LLM Engineer Intern

May 2025 - August 2025

- Rebuilt and optimized a large language model (LLM) prompt chain for a health insurance benefits chatbot (BenefitsGPT) that is used by over 5 million users to answer questions about their health plans.
 - Enhanced the input/output schema for all LLM interactions, making output extraction 50-80% more reliable.
 - Optimized instruction prompts using ground-truth datasets, increasing response accuracy from ~60% to ~80%.
- Developed 6 enterprise-grade AI agents that integrate into 2 of our software products (SecureGPT and ContractsGPT).
 - Deployed an agent which leverages Yahoo Finance APIs and LLM reasoning to perform financial analysis. Helps ContractsGPT customers analyze vendors under contract and save ~\$10 million annually.
 - Created 2 web crawling agents which answer queries by searching the web, saving users hours of manual searching.
 - Implemented an Oracle Agent Manager, an agent capable of calling other specialized Oracle Fusion agents as tools to answer complex queries about contracts, requisitions, purchase orders, and procurement activities.
