WORK EXPERIENCE

Quantum Gears (Forum Systems)

Needham, MA

LLM Engineer Intern

May 2025 - August 2025

- Rebuilt and optimized a large language model (LLM) prompt chain for a health insurance benefits chatbot (BenefitsGPT) that is used by over 5 million users to answer questions about their health plans.
 - Enhanced the input/output schema for all LLM interactions, improving robustness and reliability.
 - Optimized instruction prompts using ground-truth datasets, bringing accuracy to near production-grade standards.
- Developed and deployed enterprise-grade AI agents for a contract management and review system (ContractsGPT), which helps customers analyze business contracts using natural language queries.
 - Delivered an agent which searched Yahoo Finance and analyzed the financial health of companies under contract.
 - Created web crawling agents which download web documents from company websites for internal ingestion.
 - Implemented the company's first agent manager, an agent capable of calling other specialized Oracle Fusion agents as tools to answer complex queries about contracts, requisitions, purchase orders, and procurement activities.

PROJECTS

Greendale Youth Flag Football Registration Website

Worcester, MA

Web Developer

December 2020 - June 2021

- Implemented an online registration website for my community flag football team.
- Consulted directly with the owner of the league to gather and understand his requirements; presented different options to the league for commercial off-the-shelf software, including benefits and costs of different options.
- End result saved hundreds of hours per year of work previously done by hand.

EDUCATION

Worcester Polytechnic Institute (WPI)

Worcester, MA

B.S. in Computer Science

August 2024 - May 2027 (exp.)
