WORK EXPERIENCE

Quantum Gears (Forum Systems)

Needham Heights, MA

AI Research Intern

July 2026 – August 2026

LLM Engineer Intern

May 2025 – August 2025

- Rebuilt and optimized a large language model (LLM) prompt chain for a health insurance benefits chatbot that was used by over 5 million users to answer questions about their health plans
 - Enhanced the input/output schema for all LLM interactions, improving output extraction reliability by 50–80%
 - Optimized instruction prompts using ground-truth datasets, increasing response accuracy from ~60% to ~80%
- Developed 6 enterprise-grade AI agents that integrated into commercial software products
 - Created 2 web crawling agents that answer queries by searching the web, saving users hours of manual searching
 - Implemented an Oracle Agent Manager, an agent capable of calling other specialized Oracle Fusion agents as tools to answer complex queries about contracts, requisitions, purchase orders, and procurement activities
- Evaluated several agent frameworks on metrics like token efficiency, extensibility, and reliability, then configured one for a developer portal
 - Built custom skills, plugins, and a RAG system for document retrieval, then tested the agent on a variety of use cases

EDUCATION

Worcester Polytechnic Institute (WPI)

Worcester, MA

B.S. and M.S. in Computer Science

August 2024 – May 2027

- Cumulative GPA: 4.0/4.0; Dean's List all semesters
- Notable courses: Software Engineering, Computer Networks, Database Systems, Object-Oriented Analysis & Design, Distributed Computer Systems, Algorithms, Operating Systems, Computational Engineering

PROJECTS

Designing and Prototyping a Website for the Zoological Society of London's Biobank

London, England

WordPress Developer

May 2026 – July 2026

- Surveyed 50+ prospective users and conducted 3 interviews, then used findings to inform website design
- Facilitated 6 user testing sessions and iteratively refined website based on user insights
- Led regular stakeholder meetings to communicate project progress, gather feedback, and guide design iterations

ShopComp — A receipt sharing platform to help you find the best deals

Worcester, MA

Full Stack Web Developer

October 2025 – December 2025

- Leveraged the AWS CDK to define and deploy a RESTful API with API Gateway and Lambda Proxy integrations
- Implemented CI/CD scripts to enable automated builds and deployments
- Implemented user authentication with AWS Cognito, secured API Gateway endpoints with a Cognito Authorizer, then built a React login and account creation page
- Coordinated regular team meetings, tracked project progress, and guided team members to ensure milestones were met

TECHNICAL SKILLS

Programming	JavaScript/TypeScript, Python, Java, C/C++, SQL, HTML/CSS, PHP, Lua, $\LaTeX$
Databases	Oracle, MySQL, PostgreSQL
Dev Tools	Git, Linux, SSH, Docker, Nix, Jira
AI Agents	Hermes, OpenClaw, Claude Code, NemoClaw, OpenCode
Math Topics	Linear Algebra, Probability and Statistics, Trigonometry, Calculus
